Date

CENTRAL TEXAS REGIONAL MOBILITY AUTHORITY 2022 ANNUAL CONTINUING DISCLOSURE REPORT

THE SYSTEM

As of June 30, 2022, the Central Texas Regional Mobility Authority (“CTRMA” or the “Authority”) has designated the 183A Turnpike Project (Phases I, II and III), the 290E Project (Phases I, II, and III), the 183 South Project, the SH 71 Express Project, the SH 45 Southwest Project and the 183 North Mobility Project as part of the CTRMA Turnpike System (the “System”).

Annual Report of Conditions

A copy of the 2022 Annual Report of Conditions with respect to the System as provided by Atkins has previously been filed with and is publicly available on the MSRB’s EMMA system.

183 South Project Progress Reports

The Quarterly Progress Reports for the 183 South Project have previously been filed with and are publicly available on the MSRB’s EMMA system.

290E Phase III Project Progress Reports

The Quarterly Progress Reports for the 290E Phase III Project have been previously filed with and are publicly available on the MSRB’s EMMA system.

183A Phase III Project Progress Reports

The Quarterly Progress Reports for the 183A Phase III Project have previously been filed with and are publicly available on the MSRB’s EMMA system.

183 North Mobility Project Progress Reports

The Quarterly Progress Reports for the 183 North Mobility Project have previously been filed with and are publicly available on the MSRB’s EMMA system.

TOLL RATES

183A Turnpike Project. The 183A Phase I Project opened to tolled traffic in March 2007, and the 183A Phase II Project opened to tolled traffic in April 2012.

290E Project. Tolling for the 290E Phase I Project began in January 2013 and tolling for the 290E Phase II Project began in May 2014. The southbound SH 130 to westbound 290E direct connector, being a portion of the 290E Phase III Project, was opened to tolled traffic in January 2020, and the Authority began receiving Toll revenues from such portion of the 290E Phase III Project in February 2020. The northbound SH 130 to westbound 290E direct connector was opened to tolled traffic, and the Authority began receiving Toll revenues from such portion of the 290E Phase III Project in July 2020.

183 South Project. The “Interim Design/Build Work” under the terms of the 183 South Contract, which consists of the construction of approximately 4.3 miles of the ultimate project configuration of the 183 South Project, opened to tolled traffic on August 1, 2019, and the Authority began receiving Toll revenues from such portion of the 183 South Project in September 2019. The toll gantry at the northbound exit ramp at FM 969 was opened to tolled traffic on September 26, 2020. Two northbound toll gantries were opened to tolling on January 16, 2021 and two southbound toll gantries were opened to tolling on January 23, 2021, and the toll gantries for the direct connectors to/ from SH71 were opened to tolling on February 24, 2021- all in the southern section of the project corridor. All toll gantries of the 183 South Project have been completed and are open to traffic.

SH 71 Express Project. Tolling for the SH 71 Express Project began on February 28, 2017, and the Authority began receiving Toll revenues from the SH 71 Express Project in March 2017.

SH 45 Southwest Project. The Authority began receiving revenues from the SH 45 Southwest Project as a non-System project on June 1, 2019. The Authority began receiving Toll revenues from the SH 45 Southwest Project as a System Project following the addition of the SH 45 Southwest Project to the System on January 22, 2020.

Exemptions from Tolls. The Authority has covenanted in the Master Trust Indenture that it will not grant free passage through a Toll collection facility on the System, except that it will grant free passage to Authorized Emergency Vehicles and such other vehicles as may be required or allowed by applicable law. Under the Authority’s current toll policy, the following vehicles are currently exempt from paying Tolls on the System: (i) Authorized Emergency Vehicles under Section 370.177, Texas Transportation Code; (ii) a state or federal military vehicle under Section 362.901 of the Texas Transportation Code; (iii) under Section 370.177 of the Texas Transportation Code, vehicles used exclusively to provide transportation to a member of the public under a transit program established and managed by the Capital Metropolitan Transportation Authority or the Capital Area Rural Transportation System, and (iv) vehicles exempted by federal law.

At its meeting on July 25, 2018, the Board authorized the implementation of a toll rate discount program for qualified veterans, and at its meeting on January 29, 2020, the Board approved an expansion of such program. The toll rate discount program for qualified veterans exempts one vehicle per qualified veteran or for those who qualify for a hardship exemption, the limit is two vehicles per qualified veteran. The Authority’s policies were amended to effectuate the qualified veterans discount program. This program applies to all System toll facilities and does not apply to the MoPac Improvement Project. Qualifying veterans are those who meet the Texas Department of Motor Vehicle’s requirements for Congressional Medal of Honor, Legion of Valor, Purple Heart awards and disabled veteran license plates. In order to qualify for this program, qualifying veterans are required to utilize an ETC transponder tag and register that tag and associated license plate with the Authority. This program became effective in November 2018. At its meeting on October 27, 2021, the Board reauthorized the qualified veterans discount program, leaving the program in place until further action of the Board.

Subject to the provisions of the Indenture, the Authority’s toll policy (which includes the foregoing toll exemptions and the annual toll adjustment described below) may be changed by action of the Board at any time.

Annual Toll Adjustment Policy. Subject in all respects to the provisions, requirements and restrictions of the Indenture, the Authority modified its toll policy in April 2011 to include a process for implementing an annual increase in the Toll rates for the System based on the non-revised index of Consumer Prices for All Urban Consumers before seasonal adjustment (“CPI”), as published by the Bureau of Labor Statistics of the U.S. Department of Labor. The CPI is published monthly and the CPI for a particular month is generally released and published during the following month.

The current toll policy provides that on each October 1 (each, a “*Toll Escalation Determination Date*”), a percentage increase in the Toll rates for the System will be determined in an amount equal to $[(CPI^t - CPI^{t-12})/CPI^{t-12}]$, where CPI^t is the most recently published CPI prior to the Toll Escalation Determination Date for which such calculation is being made and CPI^{t-12} is the CPI published in the month that is twelve months prior to CPI^t (the “*Toll Rate Escalation Percentage*”). If the Toll Rate Escalation Percentage is calculated to equal less than 0%, then the Toll Rate Escalation Percentage shall be deemed to equal 0%. The Toll Rate Escalation Percentage, as calculated on each Toll Escalation Determination Date, will be reported to the Board each year at its October board meeting. The percentage increase, if any, in the Toll rates will be effective on the January 1 of the next calendar year, unless at such board meeting the Board affirmatively votes to modify the Toll Rate Escalation Percentage. If the Board votes to modify the Toll Rate Escalation Percentage, the Toll rate increase to be effective on January 1 of the next calendar year shall be based on the modified Toll Rate Escalation Percentage. If the CPI is discontinued or substantially altered, as determined in the sole discretion of the Authority, the Authority may determine an appropriate substitute index or, if no such substitute index is able to be determined, the Authority may choose to modify the toll policy. In accordance with the terms of the toll policy, the Toll Rate Escalation Percentage determined as of October 1, 2022 was 8.20%. At its meeting on October 26, 2022, the Board did not modify the toll policy, and therefore, the Toll Rate Escalation Percentage of 8.20% will become effective on January 1, 2023. After giving effect to such Toll Rate Escalation Percentage, the Toll rates for the 183A Phase I Project, the 183A Phase II Project, the 290E Project (Phases I, II and III), the 183 South Project, the SH 71 Express Project and the SH 45 Southwest Project, which will become effective on January 1, 2023, are as set forth in the tables set forth below.

(1) Includes amount in the Subordinate Lien Debt Service Fund.

Investment earnings on funds in the Construction Fund for the Fiscal Years ending June 30, 2022 and 2021 were \$1,182,673.38 and \$266,863 respectively.

SYSTEM HISTORICAL CASH FLOW AND DEBT SERVICE COVERAGE

The table on the following page has been compiled to show the following information for the Fiscal Years ended June 30, 2022, 2021 and 2020:

- Debt Service Coverage for Rate Covenant and Additional Bonds Test – calculated based on total Revenues, Operating Expenses for the System and debt service requirements for the Senior Lien Obligations and the Subordinate Lien Obligations that were Outstanding for the periods presented. No debt service net of capitalized interest was due on any Junior Lien Obligations or Other Obligations for the periods presented. Pursuant to the Master Trust Indenture, Operating Expenses (actual or projected, as applicable) for the System are deducted from Revenues (actual or Projected Revenues, as applicable) in calculating the coverage levels for purposes of the Authority’s rate covenant and the conditions for issuing additional Obligations. No amounts were required to be deposited into the Senior Lien Debt Service Reserve Fund or into the Renewal and Replacement Fund for such periods. In 2005, the Authority received grant funds from TxDOT which were deposited into the 2005 Grant Fund established by the First Supplemental Trust Indenture and confirmed and reestablished in the Twenty-Ninth Supplemental Indenture. No transfers of such grant funds were made to the Operating Fund for payment of Operating Expenses during the periods presented.
- Debt Service Coverage for Revenues Available for Debt Service – calculated based on total Revenues, Operating Expenses for the System, Maintenance Expenses for the System and debt service requirements for the Senior Lien Obligations and the Subordinate Lien Obligations that were Outstanding for the periods presented. Pursuant to the Master Trust Indenture, Revenues are transferred to the Operating Fund for purposes of paying Operating Expenses for the System and Maintenance Expenses for the System before being available to pay debt service on Obligations.
- Annual Excess – All Revenues remaining after all payments and transfers required by the terms of the Master Trust Indenture are required to be deposited into the General Fund. Moneys in the General Fund may be used for any lawful purpose, including to pay Operating Expenses and Maintenance Expenses for the System.
- Source of Information and Basis of Accounting – amounts shown for “Toll Revenues” and “Other Revenues” were obtained from the audited financial statements of the Authority for the respective periods. Amounts shown for “Interest Income Available to Pay Debt Service” represent interest income of the Authority, as contained in the Authority’s audited financial statements, less interest income attributable to the Construction Fund. Amounts shown for “Operating Expenses” and “Maintenance Expenses” represent the allocation of total operating expenses of the Authority, as contained in the Authority’s audited financial statements, to Operating Expenses and Maintenance Expenses (as each such term is defined in the Master Trust Indenture) for the System, after first deducting certain noncash expenses for depreciation and amortization and all non-System expenses of the Authority, all as determined by the Authority. Total non-System expenses of the Authority paid from the General Fund and other available sources for the Fiscal Years ended June 30, 2022, 2021 and 2020 were approximately \$1.3 million, \$2.8 million and \$4.5 million, respectively. All amounts were accounted for on an accrual basis of accounting; provided, however, amounts shown for “Operating Expenses” and “Maintenance Expenses” exclude certain noncash expenses for depreciation and amortization.

Less: Deposits to Renewal and Replacement Fund ⁽⁵⁾	-	-	-
Annual Excess	\$56,630,748	\$26,000,724	\$35,862,289

(1) Represents interest income of the Authority, less interest income attributable to the Construction Fund.

(2) Represents Operating Expenses (as defined in the Master Trust Indenture) for the System.

(3) Amounts shown reflect net debt service, and therefore such amounts are net of amounts deposited with the Trustee and used to pay debt service for such periods in accordance with the terms of the Indenture (such as capitalized interest and payments received under TxDOT assistance agreements).

(4) Represents Maintenance Expenses (as defined in the Master Trust Indenture) for the System.

(5) The Authority was not required to make any payments to the Renewal and Replacement Fund for such periods.

Amounts shown in the table below and in all debt service tables appearing on the following pages reflect gross debt service, and therefore such amounts do not include offsets for (i) capitalized interest or investment earnings thereon, (ii) payments received under TxDOT assistance agreements, or (iii) debt service reserve fund moneys.
