GENERAL MEETING OF THE BOARD OF DIRECTORS OF THE CENTRAL TEXAS REGIONAL MOBILITY AUTHORITY

RESOLUTION NO. 19-057

ACCEPT THE FINANCIAL STATEMENTS FOR AUGUST 2019 AND SEPTEMBER 2019

WHEREAS, the Central Texas Regional Mobility Authority (Mobility Authority) is empowered to procure such goods and services as it deems necessary to assist with its operations and to study and develop potential transportation projects, and is responsible to insure accurate financial records are maintained using sound and acceptable financial practices; and

WHEREAS, close scrutiny of the Mobility Authority's expenditures for goods and services, including those related to project development, as well as close scrutiny of the Mobility Authority's financial condition and records is the responsibility of the Board and its designees through procedures the Board may implement from time to time; and

WHEREAS, the Board has adopted policies and procedures intended to provide strong fiscal oversight and which authorize the Executive Director, working with the Mobility Authority's Chief Financial Officer, to review invoices, approve disbursements, and prepare and maintain accurate financial records and reports;

WHEREAS, the Executive Director, working with the Chief Financial Officer, has reviewed and authorized the disbursements necessary for the month of August 2019, and has caused financial statements to be prepared and attached to this resolution as <u>Exhibit A</u>; and

WHEREAS, the Executive Director, working with the Chief Financial Officer, has reviewed and authorized the disbursements necessary for the month of September 2019, and has caused financial statements to be prepared and attached to this resolution as <u>Exhibit B</u>; and

NOW THEREFORE, BE IT RESOLVED, that the Board of Directors accepts the financial statements for August 2019 and September 2019, attached hereto as <u>Exhibit A</u> and <u>Exhibit B</u> respectively.

Adopted by the Board of Directors of the Central Texas Regional Mobility Authority on the 30th day of October 2019.

Economic Commentary

August was a volatile month, as trade tensions between the U.S. and China intensified and talk of trade wars dominated markets. The tone was set on the first day of the month from President Trump announcing that the U.S. would impose a 10% tariff on the remaining approximately \$300 billion of Chinese imports that were not yet subject to tariffs. This announcement triggered retaliatory measures from China, which moved to increase tariffs on roughly \$75 billion of U.S. imports, including agricultural goods, crude oil and cars. It was only at the end of the month that both countries adopted a slightly more conciliatory tone but the damage to business and investor sentiment had already been done. Equity markets declined, and credit spreads widened, while Treasury yields rallied in the flight to quality. Following the first rate cut in more than a decade at the end of July, Fed Chair Jerome Powell's Jackson Hole speech was largely in line with expectations and paves the way for the Fed to make another 25 bp interest rate cut in September, perhaps followed by another cut at either the October or December meetings.

Economic data released in August pointed to a weak U.S. manufacturing sector, slowing global growth and muted inflation pressures beyond the one time tariff impacts. This is in sharp contrast to the U.S. labor market, which continues to exhibit strength, and to the robust consumption spending data. The U.S. economy is in decent shape, but the outlook has dimmed. The protracted trade war between the U.S. and China combined with slowing global growth and increasing business uncertainty is already translating into softening investment. Similar to 2015-2016, the U.S. economy is experiencing a bifurcation between two areas: 1) a healthy labor market and a robust pace of consumption with 2) weaker business investment and manufacturing. Questions have intensified about the timing of the next recession, while we do not believe that this situation will pull the U.S. into a technical recession in the near-term, economic growth should continue to moderate in the second half of 2019, therefore making the economy more susceptible to shocks. We expect very little contribution from business investment in the second half of 2019 given the increasing uncertainty surrounding the resolution of the trade war. This is causing business confidence to weaken and industrial production to stall. The Fed will likely cut policy rates two more times in 2019 beginning with the September meeting. The size of future cuts will be depend on domestic growth developments.

Definition of Weighted Average Maturity (1) & (2)

(1) This weighted average maturity calculation uses the SEC Rule 2a-7 definition for stated maturity for any floating rate instrument held in the portfolio to determine the weighted average maturity for the pool. This Rule specifies that a variable rate instrument to be paid in 397 calendar days or less shall be deemed to have a maturity equal to the period remaining until the next readjustment of the interest rate.

(2) This weighted average maturity calculation uses the final maturity of any floating rate instruments held in the portfolio to calculate the weighted average maturity for the pool.

Economic Commentary

Economic growth and global trade continued to dominate investor attention. The third quarter was marked by a continued slowdown in the global economy offset by further monetary easing. The Federal Reserve cut interest rates 25 bps at the July and September FOMC meetings bringing the fed funds rate target range to 1.75% to 2.0% in an attempt to prolong the economic expansion in the face of a slowdown in the pace of growth. The Fed stated that it will "continue to monitor the implications" and "will act as appropriate" as "uncertainties about [the] outlook remain." As things currently stand, further tariffs are expected to be imposed by the end of the year unless renewed talks between the U.S. and China make sufficient progress. China's economic growth has continued to slow but is still comfortably above that of the U.S. Now that the trade dispute is dampening the growth outlook and the U.S. presidential election is only a year away, it is far from clear that China will concede to U.S. demands on trade.

With the U.S. and China embroiled in a trade war, and little hope of rescue by fiscal stimulus, all eyes are on the central banks and their willingness to offset the global downturn by returning to the aggressive policy tools seen early in the post-financial crisis world. Unemployment is very low, wages have been ticking up, and consumer confidence is high. If the Fed cuts rates aggressively and expands the balance sheet once more, we anticipate the consumer balance sheet will further improve. Already, mortgage refinancing in the U.S. and the surge in asset prices have been generating a wealth effect across savers, but we worry that the growing impact of tariffs may cause companies to cut their labor forces to shed expenses. While monetary policy will act to cushion the downside, it may not be able to avert a recession on its own. This late into an expansion, the central bankers need the politicians to help with some form of fiscal stimulus. But where is the ability and courage to embark on a fiscal spend? A split U.S. Congress means that the current Administration will be relatively powerless. So where do we think monetary policy will go? We believe that the Fed will have little choice but to respond. We expect the Fed begin growing its balance sheet again and to ease rates one more time this year in December and then again in the first quarter of 2020, bringing the range on the fed funds rate to 1.25% - 1.50%.

Definition of Weighted Average Maturity (1) & (2)

(1) This weighted average maturity calculation uses the SEC Rule 2a-7 definition for stated maturity for any floating rate instrument held in the portfolio to determine the weighted average maturity for the pool. This Rule specifies that a variable rate instrument to be paid in 397 calendar days or less shall be deemed to have a maturity equal to the period remaining until the next readjustment of the interest rate.

(2) This weighted average maturity calculation uses the final maturity of any floating rate instruments held in the portfolio to calculate the weighted average maturity for the pool.

* The maximum management fee authorized for the TexSTAR Cash Reserve Fund is 12 basis points. This fee may be waived in full or in part in the discretion of the TexSTAR co-administrators at any time as provided for in the TexSTAR Information Statement.
