CENTRAL TEXAS REGIONAL
MOBILITY AUTHORITY

May 29, 2024
AGENDA ITEM #3

Prohibit the operation of certain
vehicles on Mobility Authority toll
facilities pursuant to the Habitual
Violator Program

Strategic Plan Relevance: Stewardship & Service
Department: Operations
Contact: Tracie Brown, Director of Operations
Associated Costs: N/A
Funding Source: N/A
Action Requested: Consider and act on draft resolution

Project Description/Background: The Mobility Authority's habitual violator process prescribes two notices before habitual violator remedies go into effect. A pre-determination letter is sent 60 days before any remedies are enforced advising the customer again of their outstanding balance and providing an opportunity for resolution. Assuming no resolution, a *Notice of Determination* is mailed notifying the customer they've been determined to be a habitual violator and advising of the consequences. The customer is also informed of their right to appeal the decision and the process by which to do so.

If the customer does not contact the Authority to appeal the habitual violator determination or resolve their outstanding balance, a block is placed on the related vehicle's registration preventing renewal. The block remains in effect until all tolls and fees have been paid, a payment plan has been arranged with the Mobility Authority or the customer is determined to no longer be a habitual violator.

Previous Actions & Brief History of the Program/Project: State law provides that persons deemed to be habitual violators may also be prohibited from use of the Mobility Authority's toll facilities by order of the Board of Directors. Habitual violator customers operating a vehicle in violation of a ban are subject to a Class C misdemeanor with a fine up to \$500. A second or subsequent occurrence may result in impoundment of the vehicle. Similar to registration blocks, vehicle bans remain in effect until all

outstanding amounts owed to the Authority have been resolved or the customer is no longer deemed a habitual violator.

Financing: Not applicable.

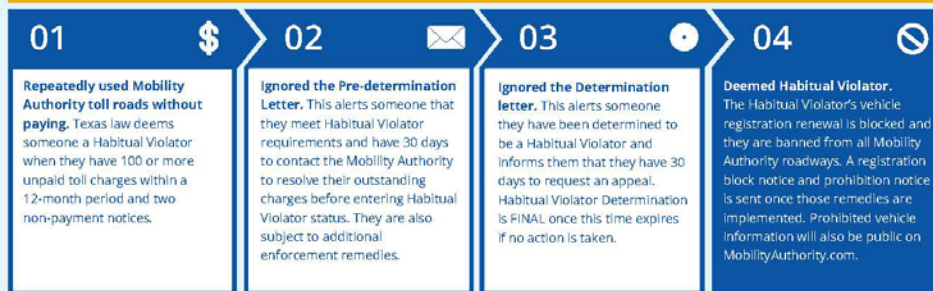

Action requested/Staff Recommendation: Staff affirms that all required steps have been followed and proper notice previously provided to customers determined to be habitual violators. To date, these customers have not appealed this determination or resolved their outstanding balances.

Therefore, staff recommends that the Board of Directors approve the order prohibiting certain vehicles from use of the Authority's toll facilities. Following the Board's approval of this order, a Notice of Prohibition will be mailed by first class mail advising of the ban, consequences if the ban is violated and how the customer may resolve their outstanding balance.

Draft Resolution

Habitual Violator Process

Who is a Habitual Violator?

A Habitual Violator is defined in Section 372.106(a) of the Texas Transportation Code as (A) one who was issued at least two written notices of nonpayment that contained in aggregate 100 or more events of nonpayment within a period of one year and, (B) was issued a warning that failure to pay the amounts specified in the notices may result in the toll project entity's exercise of Habitual Violator remedies.

What enforcement remedies is the Mobility Authority implementing for Habitual Violators?

To encourage equitable payment by all customers, legislation allows for enforcement remedies up to and including vehicle registration renewal blocks, prohibiting Habitual Violator's vehicles on Mobility Authority roadways, on-road enforcement of the vehicle ban, as well as posting names to the agency website of those Habitual Violators with banned vehicles. The Mobility Authority will be implementing these remedies beginning November 2019.

How will I know I'm a Habitual Violator subject to enforcement remedies?

Habitual Violators are provided due process protections prior to any enforcement action.

- A registered vehicle owner who the Mobility Authority determines meets the Habitual Violator status is sent a letter advising them that Habitual Violator remedies may be implemented if the customer's outstanding balance is not resolved. This letter is not required by law but is sent as a courtesy to reflect the Mobility Authority's commitment to the customer.
- A registered vehicle owner who the Mobility Authority determines to be a Habitual Violator receives written notice of that determination and an opportunity for a justice of the peace hearing to challenge their Habitual Violator status.
- Habitual Violator Determination is FINAL if no action is taken, prompt in the Mobility Authority to send a Vehicle Registration Block Notice and/or a Vehicle Ban Notice. These notices urge the Habitual Violator yet again to resolve their toll debt with the Mobility Authority.
- Sufficient time is provided to respond to all notifications.

Learn more about the Habitual Violator Enforcement Program at MobilityAuthority.com

How can I resolve my Habitual Violator status and settle my toll bill balance?

You can pay outstanding tolls and administrative fees with cash, money order or credit card (a payment plan may be available) by: calling the Mobility Authority Customer Service Center at 512-410-0562, online at www.paymobilitybill.com, or in person at our walk-up center.

Why is the Mobility Authority pursuing enforcement remedies?

The vehicle registration block and other toll enforcement actions are intended to encourage tollway drivers to pay for services rendered to ensure fairness to the overwhelming majority of drivers who pay for the service, maintenance and safety of the toll roads.

How will a person be notified that he or she is subject to enforcement remedies?

A notification letter announcing that a person has met the criteria of Habitual Violator is sent to the address in the Texas Department of Motor Vehicles (TTC 372.106) database, allowing 30 days to contact to dispute their determination as a Habitual Violator or address the account balance before remedies are applied. If the Habitual Violator does not make arrangements with the Mobility Authority during this period, they will be subject to all enforcement remedies. Additionally, notification of a registration renewal block is mailed.

Can someone dispute a toll bill?

Yes. You may contact the Mobility Authority to review all outstanding tolls and fees, correct any errors and arrange for payment to clear your status as a Habitual Violator and the block on your registration. Habitual Violators are also given an opportunity to request an administrative hearing with a justice of the peace.

How will I know or be notified that I am subject to a vehicle ban?

Habitual violators subject to vehicle ban will receive notification that they have been banned, including when the ban will take effect and instructions for how to remove their status as a Habitual Violator.

Can I dispute my toll bill that subjects me to the vehicle ban?

Yes. You may contact the Mobility Authority to review all outstanding tolls and administrative fees, correct any errors and arrange for payment to clear your status as a Habitual Violator and remove the vehicle ban.

What happens if I am banned, but get caught driving on a Mobility Authority toll road?

A person commits an offense when operating a vehicle in violation of the ban and is subject to a Class C misdemeanor with a fine up to \$500. A second or subsequent occurrence of driving on the tollway in violation of a ban may result in impoundment of the vehicle.

How will the Mobility Authority know if I'm still driving (after being banned)?

Mobility Authority roads are equipped with technology that recognizes vehicle and license plates on our prohibited list. Individuals operating a prohibited vehicle on Mobility Authority roads will be reported to nearby law enforcement patrolling Mobility Authority roads.

Definition of Weighted Average Maturity (1) & (2)

(1) This weighted average maturity calculation uses the SEC Rule 2a-7 definition for stated maturity for any floating rate instrument held in the portfolio to determine the weighted average maturity for the pool. This Rule specifies that a variable rate instruction to be paid in 397 calendar days or less shall be deemed to have a maturity equal to the period remaining until the next readjustment of the interest rate.
 (2) This weighted average maturity calculation uses the final maturity of any floating rate instruments held in the portfolio to calculate the weighted average maturity for the pool.

The maximum management fee authorized for the TexSTAR Cash Reserve Fund is 12 basis points. This fee may be waived in full or in part in the discretion of the TexSTAR co-administrators at any time as provided for in the TexSTAR Information Statement.

ECONOMIC COMMENTARY

Market review

March inflation data ignited angst for markets. While we received stickier January and February inflation, hotter than expected inflation prints for March raised questions about whether the path to the 2% target is still encountering “bumps” along the road, or a more problematic trend higher. Resilient consumers, bolstered by the unwavering strength in labor markets, continued to spend, despite higher prices and interest rates. As the month progressed, strong growth, tight labor markets, and stubborn inflation eroded market expectations for rate cuts to begin in June while Federal Reserve (Fed) members indicated that rates may remain high for longer. The U.S. economy grew at a 1.6% seasonally adjusted annualized rate in the first quarter, falling short of expectations for 2.5% growth. However, volatile components like trade and inventories, which often swing up and down in consecutive quarters, significantly impacted this slowdown. Excluding those components, the economy grew at a healthy 3.1% rate — slightly above last year’s average. Consumer spending rose 2.5% as spending on services more than offset a decline in goods spending. This growth was supported by a healthy labor market. The March employment report provided fresh evidence of this momentum. Nonfarm payrolls rose by an impressive 303,000, handily beating expectations, while revisions to the prior two months added another 22,000 in jobs. Most sectors added jobs this month, with the most outsized gains seen in government and health care. In the household survey, the labor force increased by 469,000, and the unemployment rate ticked down to 3.8%.

ECONOMIC COMMENTARY (cont.)

Despite this strength, imbalances between labor supply and demand have eased. According to the Job Openings and Labor Turnover Survey, the number of job openings declined from 8.8 million in February to 8.5 million in March. Elsewhere, wage growth rose to 0.3% m/m and moderated to 4.1% year-over-year (y/y). The March CPI report came in stronger than expected, with many of the usual suspects driving the bulk of this strength. Headline CPI rose 0.4% m/m and 3.5% y/y, its fastest annual increase since September 2023, while core CPI rose 0.4% m/m and 3.8% y/y. Core services remained problematic, specifically shelter and auto insurance, up 0.4% m/m and 2.6% m/m, respectively. Energy prices rose for a second consecutive month, while food inflation remained relatively benign. Elsewhere, lower vehicle prices offset a spike in apparel prices, allowing core goods disinflation to continue. Similarly, the headline and core Personal Consumption Expenditures Price Index (PCE) rose by a hotter than expected 2.7% and 2.8% y/y, respectively.

At its May 1st meeting, the Federal Open Market Committee (FOMC) voted to leave the federal funds rate unchanged at a target range of 5.25%-5.50% for a sixth consecutive meeting. The statement added a new sentence that acknowledged the recent stalling in the broad disinflationary trend, but also maintained the language stating the Committee does not anticipate it will cut rates until it is confident inflation is headed towards 2%. Elsewhere in the statement, the Federal Reserve (Fed) noted that it will slow the pace of quantitative tightening (QT) beginning in June by reducing the monthly redemption cap on Treasury securities from \$60bn to \$25bn and maintaining the \$35bn cap on agency mortgage-backed securities (MBS), though it did not state when QT would end. The Committee will reinvest securities maturing in excess of these caps into U.S. Treasuries.

This statement was not much of a surprise to investors as recent Fed speech had acknowledged the lack of progress on inflation and the desire to maintain the current level of policy rates for longer. As such, Treasury yields increased. The three-month Treasury bill yield modestly rose 3 basis points (bps) to end the month at 5.40%, and the six-month Treasury bill yield rose 8 bps to 5.40%. One- and two-year Treasury yields increased more significantly, up 21 bps and 42 bps to 5.24% and 5.04%, respectively.

Outlook

Having started 2024 with the market pricing almost seven quarter-point policy rate cuts from the Fed this year, expectations are now for significantly fewer cuts, with some talk that there may not be any cuts at all. The “last mile” of disinflation has proven to be the hardest. CPI inflation has been accelerating recently, with core PCE inflation up in 1Q24, and the Employment Cost Index (ECI) climbing a stronger-than-expected 1.2% — its largest gain in a year. While inflation has come down significantly from its highs in 2022, there are tentative signs that it is not falling fast enough to allow the Fed to cut rates as soon, or by as much, as they had initially indicated in the Summary of Economic Projections provided in March. However, it appears the FOMC continues to believe the current level of policy rates is restrictive, as evidenced by the moderation in labor demand, making the potential for further rate hikes unlikely.

That said, given the underlying strength in consumption and the relative tightness of labor markets, we anticipate that the Fed is likely to hold the policy rate on pause until they are confident that inflation is back on track to the 2% target. It seems clear that the FOMC remains biased to eventually cut rates, but the timing and cadence of policy easing will be determined by how inflation develops over the next few months. We now believe there may be only one rate cut this year, most likely after the presidential election. We expect economic growth to continue to moderate from the robust pace experienced last year, setting the stage for a soft landing.
