

**GENERAL MEETING OF THE BOARD OF DIRECTORS  
OF THE  
CENTRAL TEXAS REGIONAL MOBILITY AUTHORITY**

**RESOLUTION NO. 24-001**

**PROHIBITING THE OPERATION OF CERTAIN MOTOR VEHICLES  
ON MOBILITY AUTHORITY TOLL FACILITIES PURSUANT TO  
THE HABITUAL VIOLATOR PROGRAM**

WHEREAS, Transportation Code, Chapter 372, Subchapter C, authorizes toll project entities, including the Central Texas Regional Mobility Authority (Mobility Authority), to exercise various remedies against certain motorists with unpaid toll violations; and

WHEREAS, Transportation Code §372.106 provides that a “habitual violator” is a registered owner of a vehicle who a toll project entity determines:

- (1) was issued at least two written notices of nonpayment that contained:
  - (A) in the aggregate, 100 or more events of nonpayment within a period of one year, not including events of nonpayment for which: (i) the registered owner has provided to the toll project entity information establishing that the vehicle was subject to a lease at the time of nonpayment, as provided by applicable toll project entity law; or (ii) a defense of theft at the time of the nonpayment has been established as provided by applicable toll project entity law; and
  - (B) a warning that the failure to pay the amounts specified in the notices may result in the toll project entity’s exercise of habitual violator remedies; and
- (2) has not paid in full the total amount due for tolls and administrative fees under those notices; and

WHEREAS, the Mobility Authority previously determined that the individuals listed in Exhibit A are habitual violators, and these determinations are now considered final in accordance with Transportation Code, Chapter 372, Subchapter C; and

WHEREAS, Transportation Code §372.109 provides that a final determination that a person is a habitual violator remains in effect until (1) the total amount due for the person’s tolls and administrative fees is paid; or (2) the toll project entity, in its sole discretion, determines that the amount has been otherwise addressed; and

WHEREAS, Transportation Code §372.110 provides that a toll project entity, by order of its governing body, may prohibit the operation of a motor vehicle on a toll project of the entity if:

- (1) the registered owner of the vehicle has been finally determined to be a habitual violator; and

(2) the toll project entity has provided notice of the prohibition order to the registered owner; and

WHEREAS, the Executive Director recommends that the Board prohibit the operation of the motor vehicles listed in Exhibit A on the Mobility Authority's toll roads, including (1) 183A Toll; (2) 290 Toll; (3) 71 Toll; (4) MoPac Express Lanes; (5) 45SW Toll; and (6) 183 Toll.

NOW THEREFORE, BE IT RESOLVED that the motor vehicles listed in Exhibit A are prohibited from operation on the Mobility Authority's toll roads, effective January 31, 2024; and

BE IT FURTHER RESOLVED that the Mobility Authority shall provide notice of this resolution to the individuals listed in Exhibit A, as required by Transportation Code §372.110; and

BE IT IS FURTHER RESOLVED that the prohibition shall remain in effect for the motor vehicles listed in Exhibit A until the respective habitual violator determinations are terminated, as provided by Transportation Code §372.110.

**Definition of Weighted Average Maturity (1) & (2)**

(1) This weighted average maturity calculation uses the SEC Rule 2a-7 definition for stated maturity for any floating rate instrument held in the portfolio to determine the weighted average maturity for the pool. This Rule specifies that a variable rate instruction to be paid in 397 calendar days or less shall be deemed to have a maturity equal to the period remaining until the next readjustment of the interest rate.  
 (2) This weighted average maturity calculation uses the final maturity of any floating rate instruments held in the portfolio to calculate the weighted average maturity for the pool.

The maximum management fee authorized for the TexSTAR Cash Reserve Fund is 12 basis points. This fee may be waived in full or in part in the discretion of the TexSTAR co-administrators at any time as provided for in the TexSTAR Information Statement.

**ECONOMIC COMMENTARY**

**Market review**

Developments in November kept alive the hopes for a soft landing as the U.S. economy continued to remain resilient and inflation in the United States continued to moderate, which should support a Federal Reserve (Fed) pause. Headline CPI was flat month-over-month (m/m) and rose 3.2% year-over-year (y/y), while core CPI rose 0.2% m/m and 4.0% y/y. This was driven by energy prices declining sharply. Shelter on the other hand was still a large contributor but decelerated to 0.3% m/m from 0.6% m/m last month. It is also worth noting that the producer price index fell 0.5% m/m, the largest decrease since April 2020, echoing an easing in pricing pressures. Cooling inflation this month was also met with strong economic data. In fact, third quarter real GDP was revised up to 5.2% quarter-over-quarter (q/q) from 4.9% for 3Q23 due to upward revisions in business fixed investment and government spending, but partially offset by downward revisions to consumer spending. That being said, an uptick in consumer spending may occur in November, as consumers, in aggregate, spent a record \$9.8 billion online during the Black Friday holiday sale.

On the labor market side, market indicators are moderating from peak tightness, but data still looks strong relative to history. The demand for labor, as measured by the Job Openings and Labor Turnover Survey (JOLTS) report, saw the number of job openings increase for the second consecutive month to 9.55 million in September. The October Bureau of Labor Statistics employment situation report showed the unemployment rate at 3.9%, an uptick from the prior month, but still strong relative to history.

## *ECONOMIC COMMENTARY (cont.)*

While the labor market continues to remain sound (but showing some early signs of pressure), the effects of tight monetary policy should lead to even more moderate economic growth going forward. This is reflected in the latest Senior Loan Officer Opinion Survey (SLOOS), which showed credit demand falling in the third quarter as banks continued to tighten lending standards for U.S. businesses and households. Given the progress made on inflation thus far and the overall resiliency of the US economy, it is not surprising to see that the Federal Open Market Committee (FOMC) voted to leave the federal funds rate unchanged at a range of 5.25% to 5.50% in their meeting on November 1st, showing a willingness to be patient and proceed with caution. The Fed will continue to maintain its data dependent stance from here, although Fed Chair Powell did acknowledge that risks are now more “two-sided.” That said, he made it clear that economic and labor market conditions will need to ease further to convince the Fed that inflation is heading back to target. Moreover, the committee is not discussing rate cuts, keeping the “higher for longer” mantra intact.

Markets interpreted the Fed’s rhetoric as more dovish in November. This, combined with the softer jobs report and inflation prints in November, led markets to price in additional interest rate cuts in 2024, fueling a rate rally. Consequently, Treasury yields moved lower across the curve with longer maturities declining more than shorter maturities. The three-month Treasury bill yield declined 8 basis points (bps) to 5.39%, while the one-year T-bill yield fell 33 bps to 5.13% and the two-year yield fell 41 bps to 4.68% during the month.

### **Outlook**

After 1.5 years of tightening monetary policy by the Fed, we believe we are at-or-near the end of this hiking cycle. The October CPI report provided further assurance that inflation is moving steadily back to the Fed’s 2% goal. Similarly, Personal Consumption Expenditure (PCE) inflation showed continued progress, with the headline and core measures easing to 3.0% y/y and 3.5% y/y, respectively. Overall, continued disinflation progress should keep the Fed on pause and keep yields off their highs. While Chairman Powell continued to articulate his relief with progress towards achieving the Fed’s 2% inflation mandate, he clarified that it would take time to determine if the policy rate is sufficiently restrictive and commented that the Fed has not yet thought about interest rate cuts. Additionally, he reiterated that the Fed is prepared to tighten policy again if needed. We currently believe the Fed has achieved its restrictive stance and continues to keep the policy rate unchanged until we approach the second half of 2024.

For the economy, the ingredients for a soft landing remain on the table, but the weight of monetary tightening is gradually passing through various channels to consumers and businesses, despite mild consequences thus far. For markets, tight monetary policy could pose an earnings headwind for certain cyclical sectors while the Fed’s “higher for longer” mantra could instill continued volatility in bond markets. Given these outstanding risks, we continue to believe that a mild recession may occur by 2025.

This Rule specifies that a variable rate instruction to be paid in 397 calendar days or less shall be deemed to have a maturity equal to the period remaining until the next readjustment of the interest rate.  
(2) This weighted average maturity calculation uses the final maturity of any floating rate instruments held in the portfolio to calculate the weighted average maturity for the pool.

## ECONOMIC COMMENTARY

### Market review

2023 was a year filled with many twists and turns. Yet, through it all, the U.S. economy remained resilient, posting three quarters of positive GDP growth despite facing aggressive monetary tightening by the Federal Reserve (Fed), heightened geopolitical risks and a regional banking crisis. Data released in December pointed to the continued possibility of the Fed engineering a soft landing while making progress in achieving its goal of 2% inflation. Inflation continued to trend downward with headline CPI rising 0.1% month-over-month (m/m) and 3.1% year-over-year (y/y) in November, slightly above consensus but down from October, while core CPI rose 0.3% m/m and 4.0% y/y. The Fed's preferred measure of inflation, the Personal Consumption Expenditures Price Index (PCE), was softer than expected. Headline PCE fell 0.1% m/m, bringing the year ago level down from 2.9% in October to 2.6% in November. With expectations for a further slowdown in rent inflation in the coming months, this reading provides further evidence that price growth is softening.

Cooling inflation was also met with strong labor market data as the U.S. labor market continued to demonstrate improved demand/supply balance. The demand for labor, as measured by the Job Openings and Labor Turnover Survey (JOLTS) report, showed openings falling 6.6% to 8.73 million, the lowest level since 2021, but still slightly above pre-pandemic norms. The job openings to unemployed ratio is now at 1.3x, near pre-pandemic levels. The November Jobs report showed healthy employment gains but provided further evidence that the labor market is moderating. Nonfarm payrolls rose by 199,000, beating expectations of 180,000 but were below the 2023 average of 233,000. The unemployment rate declined to 3.7% from 3.9% the prior month, as new workers joined the labor force, but has moved up from its 50-year low of 3.4% earlier in the year. Average hourly earnings came in slightly above expectations, rising 0.4% m/m, with the year ago level unchanged at 4.0%. *(continued page 4)*

## *ECONOMIC COMMENTARY (cont.)*

At its final meeting of the year, the Federal Open Market Committee (FOMC) delivered an early holiday gift with a dovish shift in policy expectations, leaving the federal funds rate target range unchanged at 5.25%-5.50%, while strongly hinting that rates are at their cycle peak and the next move will be a rate cut. The median FOMC member now expects three rate cuts next year to 4.6%, an extra cut compared to the dot plot in September's Summary of Economic Projections (SEP). Moreover, updates to the SEP showed lower inflation forecasts for 2023, 2024 and 2025 without material revisions to the growth or employment forecasts, suggesting that the Fed is forecasting a soft landing. In the press conference, Chair Powell did not push back on dovish market pricing and said the Fed had started to discuss cuts at this meeting. Markets interpreted the December FOMC meeting as a pivot in policy and began to price in more aggressive rate cuts for 2024. Consequently, Treasury yields rallied across the curve in December and with longer maturities declining more. The three-month Treasury bill yield declined 5 basis points (bps) on the month to 5.34%, while one-year T-bill and two-year Treasury yields fell 35 bps and 43 bps to end the year at 4.77% and 4.25%, respectively.

### **Outlook**

The U.S. economy is entering the new year in a better place than expected as the largely anticipated recession did not occur. Strong consumption, supported by a solid labor market has led to economic resilience despite significant monetary policy tightening by the Fed. The Fed's recent dovish pivot has tipped the odds away from recession toward a soft landing. Following the December FOMC announcement, investors are breathing a sigh of relief now that the Fed is done raising interest rates. Indeed, yields fell based on a more accommodative interest rate outlook for 2024. Markets are now pricing in 150 bps of easing in 2024, with the first rate cut as early as March. We believe these expectations have gone too far and are anticipating something closer to the Fed's projections with rate cuts beginning in May or June this year.

Looking ahead, it is reasonable to expect that the balance of risks is now skewed towards the impact higher rates will have on growth and labor markets, not necessarily inflation. That said, the past two years have shown that inflation can come down even with tight labor markets and above trend growth. If this dynamic continues, a less restrictive monetary policy stance should allow for a soft landing in the U.S. economy.

A LETTER FROM OUR  
**CHAIRMAN**

We're not 'in the business' to build roads. We're charged with the mission to deliver high-quality mobility solutions that offer meaningful and long-term relief."

## COMPREHENSIVE PLANNING

While it may not always be at the forefront of your mind, the impact of transportation on our daily lives is undeniable. We all hop into cars, board buses, or grab bikes without thinking about the intricate web of connections that make it all possible. And these connections play a pivotal role in shaping routines, opportunities, and overall quality of life.

As members and stewards of our Central Texas community, we at the Mobility Authority, firmly believe that a comprehensive and forward-thinking framework is required to address the myriad of mobility challenges faced by our ever-expanding region.

We take great care in implementing data-driven, community-informed initiatives because we all thrive when there are reliable connections. It gives strength to counties and municipalities to serve their constituents and attract economic development. Local businesses rely on efficient networks to connect with consumers. Increased accessibility means job and educational opportunities for individuals across the region. And by reducing congestion and working with transit partners, we're helping reduce emissions and promote environmental stewardship.

Arguably the greatest benefit, however, is reduced commute times. We all spend less time on the road and more time doing what we love with the people we love.

We're not "in the business" to build roads. We're charged with the mission to deliver high-quality mobility solutions that offer meaningful and long-term relief. It requires that we evolve with the changing regional landscape, engage with the communities we serve, and protect the environment we all share.

And our efforts have far-reaching impacts – When we invest in mobility, we're investing in a brighter future for Central Texas.

Sincerely,

A LETTER FROM OUR  
**EXECUTIVE  
DIRECTOR**

“Our success is due in part to our commitment to customer service, collaboration with regional partners, and listening closely to community leaders and the public to incorporate their feedback into project plans.”

## AN EVOLUTIONARY APPROACH

It's not just the Austin skyline that has changed in recent years – the entire Central Texas region has gone through a rapid transformation. Major shifts in our housing, population, and economic landscape have all impacted the way we look at, evaluate, and implement projects.

We are well-prepared to navigate these changes. The complexities of modern transportation systems and the ever-changing needs of our community necessitate an evolutionary approach to mobility development and implementation.

We were created in 2002 to provide local leadership on transportation. Since then, we have evolved as a collaborative, problem-solving team with the financial engine to fund current and future mobility needs for Travis and Williamson Counties — often times faster than can be done through traditional means.

Our tenacity was quite evident this past year as we delivered on our promise to fast track improvements to a southern section of MoPac by starting construction on the Barton Skyway Ramp Relief Project and meeting major milestones ahead of schedule. Together with the 183A Phase III extension project and 183 North Mobility Project, we are currently contracting more than \$881 million worth of new infrastructure. These projects will provide major congestion relief and improve connectivity and safety for all who travel these facilities – be it by personal vehicle, foot, bus, or bike.

Our success is due in part to our commitment to customer service, collaboration with regional partners, and listening closely to community leaders and the public to incorporate their feedback into project plans.

We recognize that change is constant and embrace the need for flexibility, innovation, and a commitment to addressing both current and emerging transportation issues. Doing so allows us to build better – helping create a regional mobility system that is more efficient, sustainable, equitable, and responsive to the ever-changing needs of Central Texas.

Sincerely,

James M. Bass  
Executive Director

# OUR BOARD OF DIRECTORS

We are governed by a seven-member board of directors who are responsible for setting policies, identifying priority projects, and ensuring that the agency operates in an efficient, effective, and transparent manner. The Governor appoints the Chairman, and the Commissioners Courts for Travis and Williamson Counties each appoint three members to voluntarily serve on the Board for two-year terms.

Agency leadership and staff would like to express our sincere appreciation to former Travis County-appointees Jay Blazek Crossley and John Langmore for their service to the Board this year.

# REDEFINING MOBILITY

What does mobility mean to you? For many it conveys the way people travel or move goods from one point to another. But for us, this definition is insufficient. When we state our mission to “develop, deliver, operate and maintain high-quality roadways and related transportation solutions,” we don’t limit it to just the obvious manifestations of mobility or its traditional interpretations.

Since our inception, we’ve challenged ourselves to set the standard for mobility organizations. Mobility must encapsulate reliability and accessibility, the examination of changing community needs, and the ongoing technological shifts in transportation. It requires continued commitment to innovation, collaboration, and long-term planning. And it accounts for the responsibility we have to the ecological and economic health of our region.

**MOBILITY ISN’T JUST ABOUT BUILDING ROADS;  
IT IS ABOUT BUILDING BETTER FUTURES.**

**SINCE 2002,**  
the Mobility Authority has transformed a regional investment of \$670 million into \$2.98 billion in added-capacity infrastructure projects, with over 600 tolled and non-tolled lane miles developed with nearly half of those still operated by the agency.\* From active travel facilities to intelligent transportation systems, our agency has delivered better connections, better projects, better partnerships – because the quality and efficiency of our region’s transportation network play a fundamental role in shaping the well-being of Central Texans.

\*Includes 183A Toll, 290 Toll, 71 Toll Lane, MoPac Express Lanes, 45SW Toll, 183 Toll, 183A Phase III, and 183 North.

**I AM COMMITTED TO MAKING A DIFFERENCE DAILY BY PROTECTING RESPONDERS AND THE PUBLIC WITH THEIR DAILY COMMUTES ON ALL OF OUR MONITORED ROADWAYS.”**

— Joe Williams, Traffic & Incident Supervisor

**FOR ME, IT’S ABOUT IMPROVING TRAFFIC FLOW IN A MANNER THAT IS CONSCIENTIOUS, SAFE AND RELIABLE.”**

**OUR MOBILITY SYSTEM IS COMPLEX. IT’S THE LIFEBLOOD OF OUR COMMUNITY.”**

# CONNECTING COMMUNITIES

## 183A TOLL

The Mobility Authority's inaugural project – an 11-mile toll road from RM 620 through Cedar Park and Leander – created a reliable alternative to the gridlocked US 183. Since the second phase opened in 2012, increasing numbers of commuters have taken advantage of its time-saving benefits. In addition, the corridor primed the region for economic development, attracting millions of dollars of commercial and residential real estate, and generating revenue and employment opportunities across the region.

## 290 TOLL

Mirroring the success of 183A, the 6.2-mile 290 Toll Road tripled the previous capacity of the US 290 corridor, transforming one of our area's most gridlocked routes into one of the fastest ways in and out of Austin during rush hour. Since opening in 2014, retail outlets, restaurants, medical facilities, and other businesses have flocked to the corridor, showing just how closely infrastructure and economic opportunity are linked.

## 71 TOLL LANE

In 2017, the Mobility Authority celebrated the opening of our third toll road, offering drivers a free-flowing and reliable bypass route along SH 71 east of the Austin-Bergstrom International Airport (AUS) from Presidential Boulevard to SH 130.

## MOPAC EXPRESS LANE

This 11-mile, variably priced express lane stretches from Cesar Chavez Street in downtown Austin north to Parmer Lane in both directions, providing drivers with a reliable alternative, particularly during congested time periods.

## 45SW TOLL

This greenfield project created a brand-new connection for drivers between the southern end of MoPac and FM 1626 in Hays County. Through innovative construction practices and implementation of permanent Best Management Practices (BMPs), the roadway ensures continued protection of water quality and the Edwards Aquifer Recharge Zone.

## 183 TOLL

The latest roadway to open, the 8-mile 183 Toll Road tripled the previous capacity of the US 183 corridor with three toll lanes and up to three non-tolled lanes in each direction, improved the non-tolled general-purpose lanes, and provided a non-stop route to Austin-Bergstrom International Airport. With more than \$25 million in added pedestrian and bicycle facilities, this new connection provides safe and reliable connectivity for all users.

# 183A PHASE III MINDFUL MOMENTUM

Tomorrow's mobility challenges are today's priorities. Building on the success of 183A Toll, we're extending the existing 11-mile 183A Toll Road 5.3 miles northward from Hero Way to north of SH 29 as Phase III of the 183A Toll Road. Together with the associated access ramps, frontage road improvements and transitions, the overall project length will be approximately 6.6 miles.

## THIS YEAR, WE SURPASSED THE HALFWAY MARK ON CONSTRUCTING THIS PROJECT.

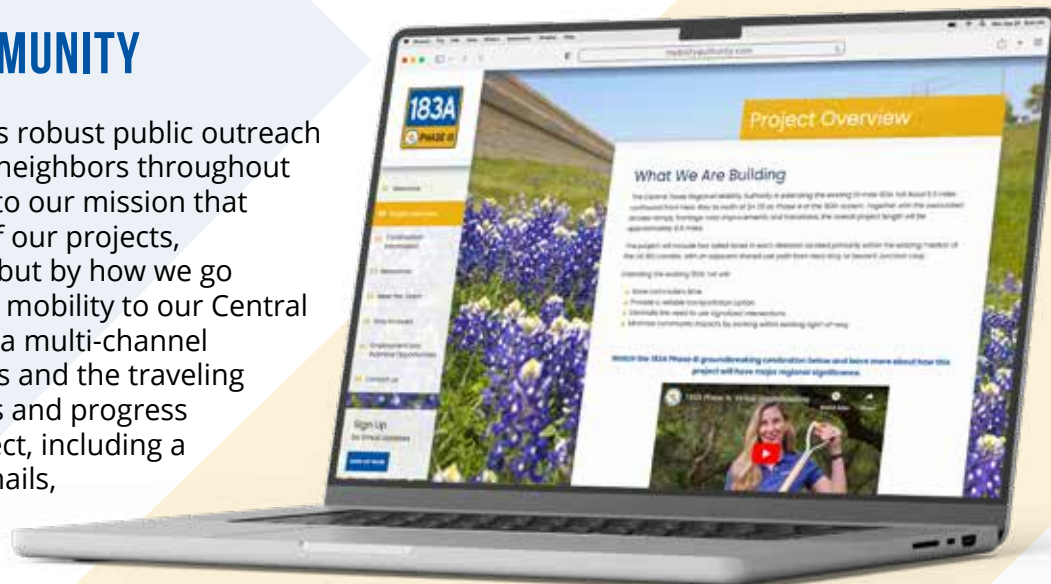

Designed to relieve congestion, and improve safety and reliability, the 183A Phase III Project will enhance mobility for residents and commuters from Cedar Park, Leander, and Liberty Hill as well as other areas across Williamson and Travis Counties.

This year, we surpassed the halfway mark on constructing this \$259 million project. Drivers and neighbors are beginning to see the improved corridor take shape with significant work on retaining walls and bridge construction underway. In addition, paving has begun on stretches of the new 183A Toll lanes.

Beyond the pavement, the project will also include an adjacent shared use path for cyclists and pedestrians that will stretch from the existing path at Hero Way to Seward Junction Loop, completing a 14-mile trail system along 183A Toll.

## AN INFORMED COMMUNITY

The Mobility Authority uses robust public outreach to engage and inform our neighbors throughout construction. It's inherent to our mission that we measure the success of our projects, not just by their outcome, but by how we go about delivering increased mobility to our Central Texas community. We use a multi-channel approach to keep residents and the traveling public informed of impacts and progress on the 183A Phase III Project, including a project website, weekly emails, postcards, and more.

# 183 NORTH MOBILITY PROJECT GETTING YOU THERE

The 183 North Mobility Project team is hard at work making improvements to northwest Austin. Improvements on this \$612 million project include two tolled express lanes in each direction along a 9-mile stretch of US 183 in North Austin from its intersection with MoPac to SH 45 North and a direct connector to the existing MoPac Express Lane.

It also includes several non-tolled improvements including a fourth general-purpose lane in areas where only three currently exist along northbound and southbound US 183, and new shared use path connections, sidewalks and cross-street connections for bicycles and pedestrians. The 183 North Mobility Project illustrates the Mobility Authority's commitment to delivering a comprehensive mobility system for the region.

Work is underway along the entire corridor and on the direct connector and collector distributor road improvements at MoPac. In 2023, crews have been advancing the bridge work near MoPac, including placement of columns and bridge decks, and widening existing bridges to improve mobility at the US 183 and MoPac interchange.

Once complete, travelers will be able to take the southbound US 183 Express Lanes to the southbound MoPac Express Lane without interruption via the direct connector structure. Pedestrians and cyclists will also benefit from improved safety and connectivity along the corridor.

## AN ENGAGED COMMUNITY

Another important component of Mobility Authority public outreach is to meet people where they are. The 183 North Mobility Project team aims to be active in the community by supporting local neighborhoods and community groups. We place a high priority on stakeholder satisfaction, transparency, and trust. By making these in-person connections, we can increase project awareness, understanding, and demonstrate our commitment to being a partner in the community.

## THE 183 NORTH MOBILITY PROJECT ILLUSTRATES THE MOBILITY AUTHORITY'S COMMITMENT TO DELIVERING A COMPREHENSIVE MOBILITY SYSTEM FOR THE REGION.

# BARTON SKYWAY RAMP RELIEF MEANINGFUL RELIEF

Early in 2023, the Mobility Authority broke ground on the non-tolled Barton Skyway Ramp Relief Project. Designed to improve safety, alleviate congestion, and improve travel times along the southbound MoPac corridor, the project's improvements include an auxiliary lane from Barton Skyway to Loop 360, an acceleration lane for the southbound Barton Skyway entrance ramp, and reconfiguration of the southbound Loop 360 exit ramp.

**ONCE COMPLETE, THE  
NEW CONFIGURATION IS  
EXPECTED TO IMPROVE  
TRAVEL TIME UP TO  
40 PERCENT.**

Overwhelming demand for the southbound MoPac corridor near Barton Skyway and Bee Caves Road has exceeded capacity of the existing configuration, prompting congestion and safety concerns. Once complete, the new configuration is expected to improve travel time up to 40 percent and serve an additional 770 vehicles during the afternoon peak period.

The reconfiguration of the Barton Skyway and Bee Caves entrance ramps – a major project milestone – were completed ahead of schedule. The project is anticipated to be complete in 2024.

# LOOKING AHEAD

In 2023, the Mobility Authority continued to uphold its commitment to deliver high-quality, reliable regional mobility solutions. But there's more to be done to connect and improve the quality of life for Central Texans. The Mobility Authority is inherently a collaborative agency and works closely with local governments and TxDOT to study and develop numerous projects that will improve mobility in the years ahead.

## MOPAC SOUTH

Expanding population and regional development have made the MoPac corridor south of Cesar Chavez Street one of the most congested roadways in Texas. The Mobility Authority is undertaking an environmental study to determine the best approach to managing congestion while promoting environmental stewardship.

**MOPAC SOUTH**

## 183A ADDED CAPACITY

Growth along the 183A corridor has resulted in increased traffic volumes on the existing tolled lanes. The Mobility Authority will examine the potential addition of a fourth lane to the center median of the existing 183A Phases I and II tolled lanes in both directions between SH 45 and Hero Way.

**183A ADDED CAPACITY**

## US 290

Since the 290 Toll Road opened in 2014, demand for this reliable, time-saving commuting option has continued to increase. Significant growth further east has impacted congestion on US 290 in both Manor and Elgin. While our regional planning partners develop a long-term plan, the Mobility Authority is gathering community feedback to determine the possibility of extending the toll road.

**US 290**

# TRAVIS COUNTY

## CAPITAL IMPROVEMENT PROGRAM

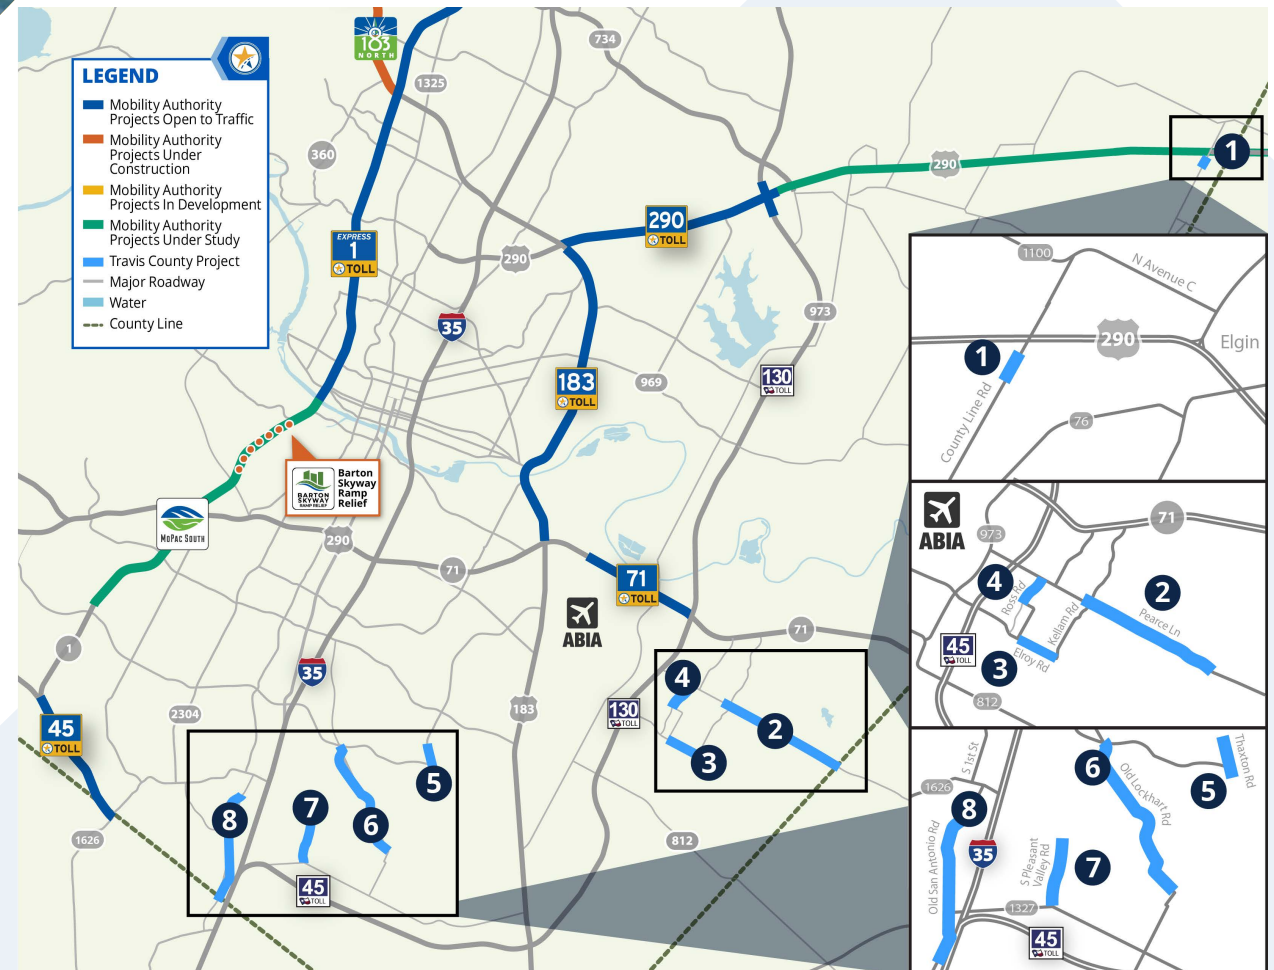

The Mobility Authority is expediting delivery of several projects in Travis County's Capital Improvement Program. This partnership leverages the Mobility Authority's unique organizational structure to develop and construct the projects on an accelerated timeline, with the County providing the funding, operation, and maintenance of the non-tolled facilities. These projects will address drainage and roadway safety concerns while facilitating bicycle and pedestrian movement.

**> 1 COUNTY LINE ROAD:** The culvert on County Line Road at Elm Creek will be replaced. This reconstruction will address stream crossing and drainage concerns by replacing the current undersized culvert and adjacent structures.

**> 2 PEARCE LANE:** A 3.25-mile section of Pearce Lane from west of Kellam Road to east of Wolf Lane will be reconstructed from the existing two-lane road to a four-lane divided road with bike lanes and sidewalks.

## > TRAVIS COUNTY

**> 3 ELROY ROAD:** In early 2022, construction was completed on the Elroy Road project. This 1.12-mile section of Elroy Road from McAngus Road to Kellam Road has been transformed from a two-lane road to a five-lane road with a continuous center turn lane, bike lanes, and sidewalks.

**> 4 ROSS ROAD:** A 0.8-mile section of Ross Road from Pearce Lane to Heine Farm Road is currently serving as a two-lane road for commuter and school traffic. The project will widen the existing road to a three-lane road with bicycle and pedestrian facilities.

**> 5 THAXTON ROAD:** A 0.71-mile section of Thaxton Road from McKinney Falls Parkway to Sassman Road will be reconstructed from the existing two-lane road to a five-lane roadway that includes a continuous center turn lane, bike lanes and sidewalks.

**> 6 OLD LOCKHART ROAD:** A 1.7-mile section of Old Lockhart Road from Capitol View Drive to Thaxton Road will have shoulders added in both directions.

**> 7 SOUTH PLEASANT VALLEY ROAD:** A 2.5-mile section of Bradshaw Road and Turnersville Road will be reconstructed as South Pleasant Valley Road from River Plantation Drive to SH 45 from existing two-lane roads to a four-lane divided road with bike lanes and sidewalks.

**> 8 OLD SAN ANTONIO ROAD:** A 2.1-mile section of Old San Antonio Road from FM 1626 to Puryear Road will have shoulders added in both directions.

# BUILDING BETTER MEANS...

**BUILDING SAFER:** For the Mobility Authority, safety isn't just a priority, it's a core value. It is fundamental to who we are and how we operate. And at the heart of our network is our Traffic Incident & Management (TIM) Center which affords us the ability to monitor our facilities and coordinate resources for incident management and maintenance. Over 120 high-definition cameras, 100 roadway sensors, and other technologies allow for a continuous live-feed of our network. A vehicle detection data feed provides real-time traffic information in addition to operators monitoring and coordinating resources both internally and with other agencies. It's an integrated mobility ecosystem designed to improve roadway safety and allow us to respond efficiently to crashes and other interruptions to traffic flow.

**BUILDING SMARTER:** The Mobility Authority's Transportation Asset Management Plan facilitates strategic management of the agency's infrastructure investments. Using a web-enabled integrated Geographic Information System (GIS) enterprise asset management software solution, assets are inventoried, condition data is collected, and maintenance activity is recorded. This program helps optimize life cycle costs, mitigate risks, manage asset performance, and identify areas for improvement and investment.

**BUILDING ADDED VALUE:** Our pedestrian- and cyclist-friendly facilities serve an important role in connecting our community. The Mobility Authority is committed to incorporating shared use paths, sidewalks, and cross-street connections whenever feasible alongside our roadway projects. To date, the agency has more than 70 miles of shared use paths or sidewalks in place or planned across the region.

Further enhancing the value of these connections is the agency's trail sign and augmented reality initiatives. 45SW Trail stretches from MoPac to FM 1626 and features two trailheads with parking, bicycle repair stands, and interpretive signage featuring the rich history and natural wonder of the Hill Country and Edwards Aquifer. With the aid of public input and community partners, the Mobility Authority installed parking, exercise equipment, and picnic tables along the 183 Trail, in addition to interpretive signs highlighting historical, cultural, and environmental information about the surrounding east Austin area. Both trails feature augmented reality experiences through the Trail Explorer by CTRMA app. It is transformation through placemaking.

**BUILDING TOGETHER:** The Mobility Authority works closely with regional partners to improve network safety, reliability, and sustainability. This year, the Mobility Authority entered into another agreement with local law enforcement to utilize drone and real-time kinematics technology to reduce the duration of crash investigations and to provide the Mobility Authority real time information affecting traffic flows and aerial video records. The agency also continues to support regional programs and partners, including CapMetro, CARTS, Commute Solutions, and Movability, in promoting better commuting practices, such as helping commuters find carpools and transit opportunities.

# OUR GUIDING FRAMEWORK

Developed in 2022 by the Board of Directors, the Mobility Authority's Strategic Plan serves as the agency's formal framework to guide projects and initiatives through 2027.

**VISION:** To be the most trusted and effective provider of transportation options that enhance the quality of life in Central Texas.

**MISSION:** To develop, deliver, operate and maintain high-quality roadways and related transportation solutions.

All agency projects and initiatives align with our strategic plan.

All terms used but not defined are located at <http://www.microsoft.com/licensing/contracts>. In the event of any conflict the terms of this Agreement control.

**Effective date.** If Enrolled Affiliate is renewing Software Assurance or Subscription Licenses from one or more previous Enrollments or agreements, then the effective date will be the day after the first prior Enrollment or agreement expires or terminates. If this Enrollment is renewed, the effective date of the renewal term will be the day after the Expiration Date of the initial term. Otherwise, the effective date will be the date this Enrollment is accepted by Microsoft. Any reference to “anniversary date” refers to the anniversary of the effective date of the applicable initial or renewal term for each year this Enrollment is in effect.

**Term.** The initial term of this Enrollment will expire on the last day of the month, 36 full calendar months from the effective date of the initial term. The renewal term will expire 36 full calendar months after the effective date of the renewal term.

## **Terms and Conditions**

### **1. Definitions.**

Terms used but not defined in this Enrollment will have the definition in the Enterprise Agreement. The following definitions are used in this Enrollment:

“Additional Product” means any Product identified as such in the Product Terms and chosen by Enrolled Affiliate under this Enrollment.

“Community” means the community consisting of one or more of the following: (1) a Government, (2) an Enrolled Affiliate using eligible Government Community Cloud Services to provide solutions to a Government or a qualified member of the Community, or (3) a Customer with Customer Data that is subject to Government regulations for which Customer determines and Microsoft agrees that the use of Government Community Cloud Services is appropriate to meet Customer’s regulatory requirements.

Membership in the Community is ultimately at Microsoft's discretion, which may vary by Government Community Cloud Service.

"Enterprise Online Service" means any Online Service designated as an Enterprise Online Service in the Product Terms and chosen by Enrolled Affiliate under this Enrollment. Enterprise Online Services are treated as Online Services, except as noted.

"Enterprise Product" means any Desktop Platform Product that Microsoft designates as an Enterprise Product in the Product Terms and chosen by Enrolled Affiliate under this Enrollment. Enterprise Products must be licensed for all Qualified Devices and Qualified Users on an Enterprise-wide basis under this program.

"Expiration Date" means the date upon which the Enrollment expires.

"Federal Agency" means a bureau, office, agency, department or other entity of the United States Government.

"Government" means a Federal Agency, State/Local Entity, or Tribal Entity acting in its governmental capacity.

"Government Community Cloud Services" means Microsoft Online Services that are provisioned in Microsoft's multi-tenant data centers for exclusive use by or for the Community and offered in accordance with the National Institute of Standards and Technology (NIST) Special Publication 800-145. Microsoft Online Services that are Government Community Cloud Services are designated as such in the Use Rights and Product Terms.

"Industry Device" (also known as line of business device) means any device that: (1) is not useable in its deployed configuration as a general purpose personal computing device (such as a personal computer), a multi-function server, or a commercially viable substitute for one of these systems; and (2) only employs an industry or task-specific software program (e.g. a computer-aided design program used by an architect or a point of sale program) ("Industry Program"). The device may include features and functions derived from Microsoft software or third-party software. If the device performs desktop functions (such as email, word processing, spreadsheets, database, network or Internet browsing, or scheduling, or personal finance), then the desktop functions: (1) may only be used for the purpose of supporting the Industry Program functionality; and (2) must be technically integrated with the Industry Program or employ technically enforced policies or architecture to operate only when used with the Industry Program functionality.

"Managed Device" means any device on which any Affiliate in the Enterprise directly or indirectly controls one or more operating system environments. Examples of Managed Devices can be found in the Product Terms.

"Qualified Device" means any device that is used by or for the benefit of Enrolled Affiliate's Enterprise and is: (1) a personal desktop computer, portable computer, workstation, or similar device capable of running Windows Pro locally (in a physical or virtual operating system environment), or (2) a device used to access a virtual desktop infrastructure ("VDI"). Qualified Devices do not include any device that is: (1) designated as a server and not used as a personal computer, (2) an Industry Device, or (3) not a Managed Device. At its option, the Enrolled Affiliate may designate any device excluded above (e.g., Industry Device) that is used by or for the benefit of the Enrolled Affiliate's Enterprise as a Qualified Device for all or a subset of Enterprise Products or Online Services the Enrolled Affiliate has selected.

"Qualified User" means a person (e.g., employee, consultant, contingent staff) who: (1) is a user of a Qualified Device, or (2) accesses any server software requiring an Enterprise Product Client Access License or any Enterprise Online Service. It does not include a person who accesses server software or an Online Service solely under a License identified in the Qualified User exemptions in the Product Terms.

"Reseller" means an entity authorized by Microsoft to resell Licenses under this program and engaged by an Enrolled Affiliate to provide pre- and post-transaction assistance related to this agreement;

"Reserved License" means for an Online Service identified as eligible for true-ups in the Product Terms, the License reserved by Enrolled Affiliate prior to use and for which Microsoft will make the Online Service available for activation.

"State/Local Entity" means (1) any agency of a state or local government in the United States, or (2) any United States county, borough, commonwealth, city, municipality, town, township, special purpose district, or other similar type of governmental instrumentality established by the laws of Customer's state and located within Customer's state's jurisdiction and geographic boundaries.

"Tribal Entity" means a federally recognized tribal entity performing tribal governmental functions and eligible for funding and services from the U.S. Department of Interior by virtue of its status as an Indian tribe.

"Use Rights" means, with respect to any licensing program, the use rights or terms of service for each Product and version published for that licensing program at the Volume Licensing Site and updated from time to time. The Use Rights include the Product-Specific License Terms, the License Model terms, the Universal License Terms, the Data Protection Terms, and the Other Legal Terms. The Use Rights supersede the terms of any end user license agreement (on-screen or otherwise) that accompanies a Product.

"Volume Licensing Site" means <http://www.microsoft.com/licensing/contracts> or a successor site.

## **2. Order requirements.**

- a. Minimum order requirements.** Enrolled Affiliate's Enterprise must have a minimum of 250 Qualified Users or Qualified Devices. The initial order must include at least 250 Licenses for Enterprise Products or Enterprise Online Services.
  - (i) Enterprise commitment.** Enrolled Affiliate must order enough Licenses to cover all Qualified Users or Qualified Devices, depending on the License Type, with one or more Enterprise Products or a mix of Enterprise Products and the corresponding Enterprise Online Services (as long as all Qualified Devices not covered by a License are only used by users covered with a user License).
  - (ii) Enterprise Online Services only.** If no Enterprise Product is ordered, then Enrolled Affiliate need only maintain at least 250 Subscription Licenses for Enterprise Online Services.
- b. Additional Products.** Upon satisfying the minimum order requirements above, Enrolled Affiliate may order Additional Products.
- c. Use Rights for Enterprise Products.** For Enterprise Products, if a new Product version has more restrictive use rights than the version that is current at the start of the applicable initial or renewal term of the Enrollment, those more restrictive use rights will not apply to Enrolled Affiliate's use of that Product during that term.
- d. Country of usage.** Enrolled Affiliate must specify the countries where Licenses will be used on its initial order and on any additional orders.
- e. Resellers.** Enrolled Affiliate must choose and maintain a Reseller authorized in the United States. Enrolled Affiliate will acquire its Licenses through its chosen Reseller. Orders must be submitted to the Reseller who will transmit the order to Microsoft. The Reseller and Enrolled Affiliate determine pricing and payment terms as between them, and Microsoft will invoice the Reseller based on those terms. Throughout this Agreement the term "price" refers to reference price. Resellers and other third parties do not have authority to bind or impose any obligation or liability on Microsoft.
- f. Adding Products.**
  - (i) Adding new Products not previously ordered.** New Enterprise Products or Enterprise Online Services may be added at any time by contacting a Microsoft Account Manager or Reseller. New Additional Products, other than Online Services, may be used if an order is placed in the month the Product is first used. For Additional Products that are Online Services, an initial order for the Online Service is required prior to use.

- (ii) Adding Licenses for previously ordered Products.** Additional Licenses for previously ordered Products other than Online Services may be added at any time but must be included in the next true-up order. Additional Licenses for Online Services must be ordered prior to use, unless the Online Services are (1) identified as eligible for true-up in the Product Terms or (2) included as part of other Licenses.
- g. True-up requirements.** Enrolled Affiliate must submit an annual true-up order that accounts for any changes since the initial order or last order. If there are no changes, then an update statement must be submitted instead of a true-up order.
- (i) Enterprise Products.** For Enterprise Products, Enrolled Affiliate must determine the number of Qualified Devices and Qualified Users (if ordering user-based Licenses) at the time the true-up order is placed and must order additional Licenses for all Qualified Devices and Qualified Users that are not already covered by existing Licenses, including any Enterprise Online Services.
- (ii) Additional Products.** For Additional Products that have been previously ordered under this Enrollment, Enrolled Affiliate must determine the maximum number of Additional Products used since the latter of the initial order, the last true-up order, or the prior anniversary date and submit a true-up order that accounts for any increase.
- (iii) Online Services.** For Online Services identified as eligible for true-up in the Product Terms, Enrolled Affiliate may place a reservation order for the additional Licenses prior to use and payment may be deferred until the next true-up order. Microsoft will provide a report of Reserved Licenses ordered but not yet invoiced to Enrolled Affiliate and its Reseller. Reserved Licenses will be invoiced retrospectively to the month in which they were ordered.
- (iv) Subscription License reductions.** Enrolled Affiliate may reduce the quantity of Subscription Licenses at the Enrollment anniversary date on a prospective basis if permitted in the Product Terms, as follows:
- 1)** For Subscription Licenses that are part of an Enterprise-wide purchase, Licenses may be reduced if the total quantity of Licenses and Software Assurance for an applicable group meets or exceeds the quantity of Qualified Devices and Qualified Users (if ordering user-based Licenses) identified on the Product Selection Form, and includes any additional Qualified Devices and Qualified Users added in any prior true-up orders. Step-up Licenses do not count towards this total count.
  - 2)** For Enterprise Online Services in a given Product pool that are not a part of an Enterprise-wide purchase, Licenses can be reduced as long as (a) the initial order minimum requirements are maintained and (b) all then-active users of each Online Service are included the total quantity of Licenses remaining after the reduction. An Enrolled Affiliate may reduce Licenses for Online Services on or before the Enrollment anniversary date and place a reservation order for such licenses within 90 days after the anniversary date; however, any licenses ordered as described in this section will be invoiced to the Enrolled Affiliate for the time period the licenses were made available.
  - 3)** For Additional Products available as Subscription Licenses, Enrolled Affiliate may reduce the Licenses. If the License count is reduced to zero, then Enrolled Affiliate's use of the applicable Subscription License will be cancelled.
- Invoices will be adjusted to reflect any reductions in Subscription Licenses at the true-up order Enrollment anniversary date and effective as of such date.
- (v) Update statement.** An update statement must be submitted instead of a true-up order if, since the initial order or last true-up order, Enrolled Affiliate's Enterprise: (1) has not changed the number of Qualified Devices and Qualified Users licensed with Enterprise Products or Enterprise Online Services; and (2) has not increased its usage of Additional

Products. This update statement must be signed by Enrolled Affiliate's authorized representative.

**(vi) True-up order period.** The true-up order or update statement must be received by Microsoft between 60 and 30 days prior to each Enrollment anniversary date. The third-year true-up order or update statement is due within 30 days prior to the Expiration Date, and any license reservations within this 30 day period will not be accepted. Enrolled Affiliate may submit true-up orders more often to account for increases in Product usage, but an annual true-up order or update statement must still be submitted during the annual order period.

**(vii) Late true-up order.** If the true-up order or update statement is not received when due, Microsoft may invoice Reseller for all Reserved Licenses not previously invoiced and Subscription License reductions cannot be reported until the following Enrollment anniversary date (or at Enrollment renewal, as applicable).

**h. Step-up Licenses.** For Licenses eligible for a step-up under this Enrollment, Enrolled Affiliate may step-up to a higher edition or suite as follows:

**(i)** For step-up Licenses included on an initial order, Enrolled Affiliate may order according to the true-up process.

**(ii)** If step-up Licenses are not included on an initial order, Enrolled Affiliate may step-up initially by following the process described in the Section titled "Adding new Products not previously ordered," then for additional step-up Licenses, by following the true-up order process.

**i. Clerical errors.** Microsoft may correct clerical errors in this Enrollment, and any documents submitted with or under this Enrollment, by providing notice by email and a reasonable opportunity for Enrolled Affiliate to object to the correction. Clerical errors include minor mistakes, unintentional additions and omissions. This provision does not apply to material terms, such as the identity, quantity or price of a Product ordered.

**j. Verifying compliance.** Microsoft may, in its discretion and at its expense, verify compliance with this Enrollment as set forth in the Enterprise Agreement.

### **3. Pricing.**

**a. Price Levels.** For both the initial and any renewal term Enrolled Affiliate's Price Level for all Products ordered under this Enrollment will be Level "D" throughout the term of the Enrollment.

**b. Setting Prices.** Unless otherwise expressly agreed to by the parties and except for Online Services designated in the Product Terms as being exempt from fixed pricing, Enrolled Affiliate's prices for each Product or Service will be established by its Reseller. As long as Enrolled Affiliate continues to qualify for the same price level, Microsoft's prices for Resellers for each Product or Service ordered will be fixed throughout the applicable initial or renewal Enrollment term. Microsoft's prices to Resellers are reestablished at the beginning of the renewal term.

### **4. Payment terms.**

For the initial or renewal order, Microsoft will invoice Enrolled Affiliate's Reseller in three equal annual installments. The first installment will be invoiced upon Microsoft's acceptance of this Enrollment and remaining installments will be invoiced on each subsequent Enrollment anniversary date. Subsequent orders are invoiced upon acceptance of the order and Enrolled Affiliate may elect to pay annually or upfront for Online Services and upfront for all other Licenses.

## 5. **End of Enrollment term and termination.**

- a. **General.** At the Expiration Date, Enrolled Affiliate must immediately order and pay for Licenses for Products it has used but has not previously submitted an order, except as otherwise provided in this Enrollment.
- b. **Renewal option.** At the Expiration Date of the initial term, Enrolled Affiliate can renew Products by renewing this Enrollment for one additional 36-month term or by signing a new Enrollment. Microsoft must receive a Renewal Form, Product Selection Form, and renewal order prior to or at the Expiration Date. Microsoft will not unreasonably reject any renewal. Microsoft may make changes to this program that will make it necessary for Customer and its Enrolled Affiliates to enter into new agreements and Enrollments at renewal.
- c. **If Enrolled Affiliate elects not to renew.**
  - (i) **Software Assurance.** If Enrolled Affiliate elects not to renew Software Assurance for any Product under its Enrollment, then Enrolled Affiliate will not be permitted to order Software Assurance later without first acquiring a new License with Software Assurance.
  - (ii) **Online Services eligible for an Extended Term.** For Online Services identified as eligible for an Extended Term in the Product Terms, the following options are available at the end of the Enrollment initial or renewal term.
    - 1) **Extended Term.** Licenses for Online Services will automatically expire in accordance with the terms of the Enrollment. An extended term option that allows Online Services to continue month-to-month (“Extended Term”) is available. During the Extended Term, Online Services will be invoiced monthly at the then-current published price as of the Expiration Date plus a 3% administrative fee for up to one year. If Enrolled Affiliate wants an Extended Term, Enrolled Affiliate must submit a request to Microsoft at least 30 days prior to the Expiration Date.
    - 2) **Cancellation during Extended Term.** At any time during the first twelve months of the Extended Term, Enrolled Affiliate may terminate the Extended Term by submitting a notice of cancellation to Microsoft for each Online Service. Thereafter, Microsoft may condition the continued use of each Online Service on the acceptance of new terms by the Enrolled Affiliate. Enrolled Affiliate will be notified in writing of any new terms at least 60 days before any such changes take effect. Enrolled Affiliate acknowledges and agrees that after the notice described in this section, its continued use of each Online Service after the effective date provided in the notice will constitute its acceptance of the new terms. If Enrolled Affiliate does not agree to the new terms, it must stop using the Online Services and terminate the Extended Term as provided in this section. Enrolled Affiliate’s termination under this section will be effective at the end of the month following 30 days after Microsoft has received the notice.
  - (iii) **Subscription Licenses and Online Services not eligible for an Extended Term.** If Enrolled Affiliate elects not to renew, the Licenses will be cancelled and will terminate as of the Expiration Date. Any associated media must be uninstalled and destroyed and Enrolled Affiliate’s Enterprise must discontinue use. Microsoft may request written certification to verify compliance.
- d. **Termination for cause.** Any termination for cause of this Enrollment will be subject to the “Termination for cause” section of the Agreement. In addition, it shall be a breach of this Enrollment if Enrolled Affiliate or any Affiliate in the Enterprise that uses Government Community Cloud Services fails to meet and maintain the conditions of membership in the definition of Community.
- e. **Early termination.** Any early termination of this Enrollment will be subject to the “Early Termination” Section of the Enterprise Agreement.

For Subscription Licenses, in the event of a breach by Microsoft, or if Microsoft terminates an Online Service for regulatory reasons, Microsoft will issue Reseller a credit for any amount paid in advance for the period after termination.

## **6. Government Community Cloud.**

- a. Community requirements.** If Enrolled Affiliate purchases Government Community Cloud Services, Enrolled Affiliate certifies that it is a member of the Community and agrees to use Government Community Cloud Services solely in its capacity as a member of the Community and, for eligible Government Community Cloud Services, for the benefit of end users that are members of the Community. Use of Government Community Cloud Services by an entity that is not a member of the Community or to provide services to non-Community members is strictly prohibited and could result in termination of Enrolled Affiliate's license(s) for Government Community Cloud Services without notice. Enrolled Affiliate acknowledges that only Community members may use Government Community Cloud Services.
- b.** All terms and conditions applicable to non-Government Community Cloud Services also apply to their corresponding Government Community Cloud Services, except as otherwise noted in the Use Rights, Product Terms, and this Enrollment.
- c.** Enrolled Affiliate may not deploy or use Government Community Cloud Services and corresponding non-Government Community Cloud Services in the same domain.
- d. Use Rights for Government Community Cloud Services.** For Government Community Cloud Services, notwithstanding anything to the contrary in the Use Rights:
  - (i)** Government Community Cloud Services will be offered only within the United States.
  - (ii)** Additional European Terms, as set forth in the Use Rights, will not apply.
  - (iii)** References to geographic areas in the Use Rights with respect to the location of Customer Data at rest, as set forth in the Use Rights, refer only to the United States.

The parties agree that the Enrollment is amended as follows:

**1. On the first page of the Enrollment, the following is added after the second paragraph:**

By entering into this Enrollment, the Enrolled Affiliate agrees that (1) it also has 25 or more Qualified Devices or Qualified Users; or (2) as a condition of entering into this Enrollment with 25-249 Qualified Devices or Qualified Users, Enrolled Affiliate has elected not to receive CD ROMs as part of the Enrollment and therefore no CD ROMs will automatically be shipped. The submission of this Amendment can only be placed against a 2011 Enterprise Agreement or an Enrollment that has the Updated EA Amendment terms and conditions applied. The submittal of this Amendment may not be contingent on submittal of a new Enterprise Agreement.
