### MEETING OF THE BOARD OF DIRECTORS OF THE CENTRAL TEXAS REGIONAL MOBILITY AUTHORITY

#### **RESOLUTION NO. 24-029**

#### ACCEPT THE FINANCIAL STATEMENTS FOR MAY 2024

WHEREAS, the Central Texas Regional Mobility Authority (Mobility Authority) is empowered to procure such goods and services as it deems necessary to assist with its operations and to study and develop potential transportation projects, and is responsible to insure accurate financial records are maintained using sound and acceptable financial practices; and

WHEREAS, close scrutiny of the Mobility Authority's expenditures for goods and services, including those related to project development, as well as close scrutiny of the Mobility Authority's financial condition and records is the responsibility of the Board and its designees through procedures the Board may implement from time to time; and

WHEREAS, the Board has adopted policies and procedures intended to provide strong fiscal oversight and which authorize the Executive Director, working with the Mobility Authority's Chief Financial Officer, to review invoices, approve disbursements, and prepare and maintain accurate financial records and reports; and

WHEREAS, the Executive Director, working with the Chief Financial Officer, reviewed and authorized the disbursements necessary for May 2024 and caused financial statements to be prepared and attached to this resolution as Exhibit A.

NOW THEREFORE, BE IT RESOLVED, that the Board of Directors accepts the financial statements for May 2024, attached hereto as <u>Exhibit A</u>.

Adopted by the Board of Directors of the Central Texas Regional Mobility Authority on the 26<sup>th</sup> day of June 2024.

Definition of Weighted Average Maturity (1) & (2)

(1) This weighted average maturity calculation uses the SEC Rule 2a-7 definition for stated maturity for any floating rate instrument held in the portfolio to determine the weighted average maturity for the pool. This Rule specifies that a variable rate instruction to be paid in 397 calendar days or less shall be deemed to have a maturity equal to the period remaining until the next readjustment of the interest rate. (2) This weighted average maturity calculation uses the final maturity of any floating rate instruments held in the portfolio to calculate the weighted average maturity for the pool.

The maximum management fee authorized for the TexSTAR Cash Reserve Fund is 12 basis points. This fee may be waved in full or in part in the discretion of the TexSTAR co-administrators at any time as provided for in the TexSTAR Information Statement.

#### **ECONOMIC COMMENTARY**

#### Market review

Weaker economic data in May contrasted with the picture of resilient U.S. growth so far this year. Following three consecutive months of unexpectedly hot inflation and strong employment figures, which sparked concerns that the Federal Reserve (Fed) may need to keep interest rates higher for longer, consumption, employment and inflation moderated, providing some much-needed relief in markets. Recent data suggested that growth is comfortably cooling from last year's robust pace. In the second revision, first quarter GDP growth was adjusted downward from an annual rate of 1.6% to 1.3%. Consumer spending rose by a downwardly revised 2.0% as spending on services more than offset a decline in goods spending, while the volatile trade and inventories components detracted from growth. However, real final sales to private domestic purchasers, which exclude these volatile segments, rose by a solid 2.8%. There were some signs that the consumer was losing momentum in April, with a 0.1% month-over-month (m/m) contraction in real personal spending, as personal income declined. The savings rate lingered well below prepandemic norms at 3.6% year-over-year (y/y), and consumers increasingly relied on credit cards for spending. Consumer confidence waned as the University of Michigan Consumer Sentiment Index in May declined to its lowest level in six months.

The April Jobs report was milder than expected and provided welcome assurance that the labor market is not adding to inflationary pressures. Nonfarm payrolls increased by 175,000, falling short of the expected 220,000, with a net downward revision of 22,000 for February and March.

#### ECONOMIC COMMENTARY (cont.)

In the household survey, the labor force was mostly unchanged, and the unemployment rate moved up slightly to 3.9%. Elsewhere, wage growth rose to 0.2% m/m and moderated to 3.9% y/y. This marks the softest y/y increase in wages since June 2021. In addition, labor demand continued to normalize as the Job Openings and Labor Turnover Survey indicated the number of job openings decreased from 8.49 million in March to 8.06 million in April bringing the ratio of job openings to unemployed back to pre-Covid levels.

The April CPI report showed a small but welcome moderation in inflation, prompting many Fed policy makers, including Chair Powell, to express that further rate hikes are unlikely. Headline CPI rose 0.3% m/m and 3.4% y/y, while the core measure rose 0.3% m/m and 3.6% y/y. Energy prices rose due to a 2.8% m/m increase in gasoline prices, which, along with a 0.4% m/m increase in shelter, contributed over 70% of this month's headline inflation number. Core goods disinflation continued, as lower vehicle prices offset higher apparel prices. Core services inflation, boosted by auto insurance, remained elevated, although its 3-month annualized run rate fell to 6.3%. Elsewhere, headline and core PCE both held steady at 2.7% and 2.8% y/y, respectively.

As expected, the Federal Open Market Committee (FOMC) kept the federal funds rate steady at 5.25%-5.50% at its May 1st meeting and announced a slower pace of quantitative tightening beginning in June. The meeting minutes, released later in the month, indicated that many participants remained uncertain about the degree of policy restrictiveness given stronger than expected inflation prints in the first quarter. The Committee remained data dependent and reiterated its need for further evidence that inflation is moving sustainably towards its 2% target in order to consider policy easing. As economic data normalized in May, Treasury yields declined out the curve. The three-month Treasury bill yield barely moved, ending the month modestly up 1 basis point (bp) at 5.41%. Longer Treasury yields declined more dramatically with one- and two-year Treasury yields falling 6 bps and 16 bps, to 5.18% and 4.87%, respectively.

#### **Outlook**

Despite earlier fears about an overheating economy, recent data indicates that the economy is moving towards a soft-landing. Economic growth should continue to moderate from the heady pace in the second half of 2023. Two months into the second quarter, the Atlanta Fed GDPNow estimate for real GDP growth in Q2 is currently 1.8%, down from 2.7%. Given the concerns about a potential reacceleration of inflation in the first quarter, the Fed remains data dependent and will likely need to see a few more months of cooler inflation prints to gain confidence inflation is moving sustainably toward 2%. Overall, the labor market continues to show healthy job growth without renewing concerns about inflation. As the Fed remains on pause, easing pressure from shelter and auto insurance should allow inflation to slowly descend through the summer. We now believe there may be only one rate cut this year, most likely after the presidential election.
